Login Details:

User: pwf
Password: pathfinder
Address: crytech.ddns.net
Port: 21

Site Navigation:

Home Directory: /home/pwf
                         Can't access API from here but can store other files if needed.

API Directory: /opt/lampp/htdocs/pwf/api
                          is where all the PHP code for the server side will be located.

Testing:

You can test the API by using the following link.

Basic Character Info:
http://crytech.ddns.net/pwf/api/getBasicCharInfo.php?usr=cryton

FileZilla:

You can download the FileZilla FTP Client from here:
https://filezilla-project.org/
